## President's Message

Dear Ladies,

I hope all of you have enjoyed the holidays with family and friends, and are looking forward to our first meeting of 2020: Monday, January 13, at 4:00 p.m. for fellowship and 4:30 p.m. for meeting and program. Remember, second Monday this month, not third).

Looking back over the last year makes me realize how much has changed in our Delta Omicron chapter! We have moved into a new home (Northway Christian Church); welcomed seven new members, two transfers, and two reinstatements into our chapter; endured the trials and tribulations of a tornado (well, some of us have); enjoyed a wonderful holiday gathering at the lovely home of Elenora Asbury; and entered into a new decade, 2020.

Looking forward to a fun and productive meeting with all of you,

*Lou McMillan*

**What ideas do you have for our next SEE project?**

Continued from page 2:

**Q. What is International's Support Early-career Educators (SEE) project?**

**A. Support Early-career Educators (SEE) is DKG International's project to support and retain teachers in their first five years in the profession.**

DKG International's Educational Excellence Committee established Supporting Early-career Educators (SEE) as its **second international project** during the **2012** International Convention in New York City.

**Why is our support needed?**

Education is a challenging career, and retaining quality teachers is an issue worldwide. According to Richard Ingersoll, the rate in U.S. of **beginning teachers leaving the profession** in the first year is a little more than 10%; with 33% leaving by Year 3 and 46% by Year 5. In addition, around 15% of U.S. teachers overall leave the profession each year. (Is There Really a Teacher Shortage, Ingersoll, 2003, p. 14)

Schools that have depended on a core of veteran teachers are seeing those teachers retire. As much is expected of a new teacher on the first day of school as is expected of a 30-year veteran. Teachers supporting teachers is crucial. Of the first year teachers assigned a mentor in 2007 – 2008, around 8% left the profession in 2008 – 2009. Of the first year teachers not assigned a mentor in the same years, about 16% were not teaching in 2008-2009 and about 23% were no longer teaching in 2009 – 2010. (Beginning Teacher Attrition and Mobility, Institute of Education Science, 2011, p. 3)

**We truly can make a difference with our support.**

***SEE encourages members/chapters to be creative in support of early-career educators.***
